Education

Don Bosco Institute of Technology, Mumbai

B.E - Computer Engineering

May 2025

CGPA : 9.25

Swami Vivekanand Junior College, Jalgaon

HSC

June 2021

95.6%

R.R.Vidyalaya, Jalgaon

SSC

June 2019

95%

Experience

Arcon TechSolutions

June 2025 - Present

Software Developer

- Developed a modular web application using Angular framework, implementing reusable UI components
- Implemented a **micro-frontend** architecture without external frameworks, leveraging libraries like **AG-Grid** and **PrimeNG** for modular and scalable frontend development
- Implemented API integration to build scalable solutions while handling UI edge cases and dynamic data rendering
- Contributed in multiple POCs based on evolving requirements and implemented optimized approaches, scalable, and maintainable code following best development practices

Jacobs Solutions India Pvt. Ltd

June 2024 - July 2024

IT Intern

- Handling and extracting data from large datasets by categorizing and sorting data according to specific requirements.
- Creating comprehensive data visualizations using **Power BI** to facilitate easy understanding and interpretation of data.
- Leveraging **data visualizations** to help in decision-making processes for the organization.

Don Bosco Institute of Technology

Oct 2023 - Mar 2024

Web Development Intern

- Revamped and maintained a dynamic departmental website using **HTML**, **CSS**, **Bootstrap** and **JavaScript** for optimizing site performance
- Worked on creative designs for college website, ensuring it's responsiveness and uniformity

CrEast - L&T in collaboration with DBIT

July 2023 - Sep 2023

C Programming instructor

- Led instructional sessions in C programming, delivering clear and comprehensive lessons to diverse group of learners
- Developed tailored coursework and hands-on exercise to enhance students' understanding

Technical Skills

Languages: Java, C, Python, HTML, CSS, JavaScript, SQL

Database: MySQL, MongoDB

Framework/Technology: Angular, Bootstrap, Express.js, React.js, Django

Core Subjects: Object-Oriented Programming, Database Management Systems, Operating Systems, System Design

Projects

Fake Product Detection Using Blockchain Technology

- Developed a system which tracks the travel history of the product and identifies the fake product in the supply chain
- Utilized **Ethereum** blockchain to deploy smart contracts, seamlessly integrating with **Metamask** and **Ganache** for efficient and secure transaction processing
- Developed a system which allocates a unique identity to each product in the form of QR code by using **Qrious.js** library

Vidhayak Bharti

- Developing a responsive website utilizing **HTML**, **CSS**, **Bootstrap** and **JavaScript** to create engaging user interface
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks
- Utilizing the **Agile** process to manage project development through iterative sprints, proceeding with regular reviews and adaptations based on feedback.

AI-Driven Hyper-local Dynamic ML Model to Predict Crop Yield

- Leveraged MODIS satellite imagery through **Google Earth Engine** to extract vegetation indices of crop and land surface data for precise regional insights
- Implemented **Machine Learning** and **Deep Learning** models and evaluated performance using standard metrics
- Built a user-friendly web platform using **Streamlit** to input region-specific data and predict crop yield

Achievements

- Secured the **Second Prize** at **InnoQuest 23'**, a technical poster presentation and live demonstration exhibition
- **Semi Finalist** in **ResCon 24**, a project exhibition competition organized by **IIT Bombay**
- Achieved **1st Rank in Sem I**, **2nd Rank in Sem III** and secured a position in top 5 in Sem II, Sem IV and Sem V

Publications

- IEEE conference paper titled **Blockchain Solutions for Detecting Fake Products** at the INNOVA Conference
- Published ICCV 2025 paper on **AI-driven hyper local ML model for crop yield prediction**

Extracurricular Activities

- **Event Head** - Association for computing machinery (ACM-DBIT) | **Unit Leader** - NSS DBIT
- **Vice-Chairperson** - Social Innovation for Environment (SIE club) | **Chairperson** - Domain Math Club DBIT
